Subject: Support Letter - Designation of Nevşehir to the UNESCO Creative Cities Network

UNESCO CREATIVE CITIES NETWORK 26.05.2023 2240

Being the umbrella organization of Turkish private sector, the Union of Chambers and Commodity Exchanges of Türkiye (TOBB) aims at ensuring unity and solidarity between chambers and commodity exchanges, enhancing development of the professions in conformance with general interest, facilitating professional work of members, promoting honesty and confidence in the relations of members with one another and with the general public and preserving professional discipline and ethics.

Turkish cuisine is frequently considered to be one of the greatest in the world. The city of Nevşehir, capital of a Cappadocian province is well-known for its delicious cuisine, which preserved its tastes for centuries and integrated different eating and drinking cultures from every corner of Anatolia.

Gastronomy and its related sectors have been the driving forces of Nevşehir's socio-economic development. Nevşehir has been playing an important role for keeping gastronomy culture alive, being home for many chefs and small and medium enterprises. On the other hand, Nevşehir's solid educational infrastructure in gastronomy is essential for specialized training of new chefs.

With all its characteristics, we support the designation of the city of Nevşehir as a Creative City in gastronomy by the UNESCO Creative Cities Network.

Sincerely Yours,

M. Rifat HİSARCIKLIOĞLU
President
